## Location:

1048 Lakefield Rd.

Grafton, WI 52024

Jack & Paula Curtis combine quality horsemanship, classical dressage, and centered riding principles to help each participant realize the potential relationship they can have with their horse. A relationship built on trust, respect and mutual understanding.

Is your horse; spooky, barn sour, buddy sour, or do you just need him to gain confidence on the trail? Trail riding Safely is a very important goal, and preparation is key. This clinic will give you the tools to check out your horse to be able to determine if he is ready for the trails. Exercises will be given to help you, help your horse become more confident and relaxed about new situations. Controlled simulations will be used to prepare both the horse and rider for the trails. Then we will hit the trails, and put it all to practice. On Sunday there will be a trail challenge course, where you will be timed and scored on your ability to negotiate various obstacles.

## Trail Riding Safely

The power of riding with focus

Building a trusting partnership

Control in a high stress situations

Learn how your horse mirrors you emotions

How to break tasks down into small manageable pieces

*"We must utilize what nature has given these talented athletes, and better our understanding of how they operate, so we can get the most out of our horses."*
